

Congratulations to Drs. Jillella, Moore and Sorrentino for inclusion in Americas Top Doctors!

2009 - Top Doctors

DOM faculty selected for inclusion in Americas Top Doctors, a national patient reference guide published by Castle Connolly Medical Ltd. The book, which identifies the top 1 percent of physicians in the nation, helps patients find the top specialists in any given medical field.

Dr. Anand P. Jillella, Hematology/Oncology. Dr. Jillella is Professor of Medicine, and Chief of the Division of Hematology/Oncology and Bone Marrow Transplantation. His areas of study include bone marrow transplantation, leukemia, lymphoma, multiple myeloma and blood-related cancers.

Dr. Robert A. Sorrentino, Cardiac Electrophysiology. Dr. Sorrentino is Professor of Medicine and Interim Section Chief of Cardiology. His clinical and research interests are irregular heartbeats, abnormal heart rates, catheter ablation, the implantation and troubleshooting of pacemakers, implantable defibrillators, pacemaker lead extraction and the evaluation of fainting (syncope).

Dr. Walter J. Moore, Rheumatology. Dr. Moore is Professor of Medicine and Chief of the Division of Rheumatology and Adult Allergy. His interests include the diagnosis and treatment of inflammatory soft tissue disorders, inflammatory connective tissue diseases, Patient Family Centered Care and patient education.
