

MCG Department IDs

Department ID – is designated by an 8 digit numeric code. The department ID is unique to each Board of Regent school. Thirty-two of the Board of Regent schools use 7 digits for their department ID.

1. The first two digits represent a School or Administrative Unit.
2. The next four digits are inter-departmentally defined, and are frequently used to identify a specific department or program within a School or Administrative Unit.
3. If the last digit is an A, this signifies that it is an Agency Account, which is only used in Fund 60000 with account code 241100.
4. Not all department IDs added in PeopleSoft Financials are found in PeopleSoft HRMS. HRMS department IDs should follow an organizational chart.
