

## RESTRICTED ACCESS INFORMATION

Below is a list of the restricted areas that are controlled by the badge security system. Supervisors requesting access to restricted areas for a newly hired employee must indicate the restricted area requested (front side of ID Badge form) and obtain the appropriate building coordinator signature BEFORE submitting this form to Human Resources with the appointment PAR.

As more buildings are brought on line with the security system, this list will be updated. A revised list will be maintained on the Public Safety website. For other information concerning security access, contact ID Badging / Key Control Office at 1-6287.
