

## BIOSAFETY SCHEDULE O: USE OF BIOLOGICAL AGENTS AND/OR RECOMBINANT DNA IN APPLICATIONS FOR SPONSORED FUNDING OR IRB APPROVAL

- 1. In order to verify that experiments proposed in a particular sponsored project application to the funding agencies indicated below are fully detailed in the associated Biosafety Protocol (BSP), please provide information for communication between the Biosafety Office and DSPA.**

*By providing this information in the chart below, the PI is verifying that the agents, experiments and personnel involved in the sponsored project application have been fully detailed in the associated BSP as indication. Random reviews will be performed by the Biosafety Office, and grant material may be requested for review at that time.*

BSP #	PI listed on BSP	BSP Title	PI listed on Grant/Contract	Grant/Contract Title	Funding Agency Source	Date of Submission	Anticipated Funding period (MM/YY-MM/YY)

- 2. In order to verify that experiments proposed in a particular HAC or CCRI application are fully detailed in the associated Biosafety Protocol (BSP), please provide information for communication between the Biosafety Office and OHRP.**

*By providing this information in the chart below, the PI is verifying that the agents, experiments and personnel involved in the IRB application have been fully detailed in the associated BSP as indication. Random reviews may be performed by the Biosafety Office, and protocol material may be requested for review at that time.*

BSP #	PI listed on BSP	BSP Title	PI listed on IRB Application	Title of Project/Protocol	Funding Agency Source	Date of Submission	Anticipated Funding period (MM/YY-MM/YY)
