| <b>At End of Rotation</b> |                               |
| <input type="checkbox"/>  | Complete evaluations on One45 |

Helpful hints from previous students:

- Watch or attend the lectures – they really are helpful!
- Consider doing CLIPP Cases 1 and 5 before your Newborn Nursery/Adolescent Week
- CLIPP Case 23 is helpful for learning fluids and electrolytes
- CLIPP Cases are different than the 20 Clinical Cases for the departmental exam essay questions.
