## School of Dentistry Activities

Due to the limited space in the teaching labs, you will be divided into two groups according to your students' last names. Group I (A-M) will report to the two lab demonstrations first- 1-1:45 PM. In the meantime, Group II (N-Z) should see the other clinical demonstrations first. At 1:45 PM the groups should switch so everyone can see all of the exhibits that they are interested in.

Special Student Group Activities such as ASDA, SNDA, Student Research, and

Student Mission Trips will be featured on the third floor as well.

*We hope that these demonstrations and exhibits will give you some insight into the life of a dental student at MCG.*
